### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William L. Gates on August 8, 2005.

The application has been amended as follows:

Claim 11 has been cancelled;

In claim 12, line 4, "first" has been changed to –initial firing--;

On the same line, "a" has been corrected to –said--; and

In claim 13, line 4, "first" has been changed to –initial firing--.

The following is an examiner's statement of reasons for allowance: The prior art does not show nor suggest "re-firing the substrate at a second temperature higher than the initial firing temperature so as to cause a change in the dielectric constant of the ceramic material, thereby changing the frequency response of said filter" as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
